

Company Overview

Gatesix is a technology solutions provider that is a one-stop-shop for all aspects of technology critical to any growing business. Gatesix employs a no-nonsense approach to get right to the heart of a problem and uncover a simple, intelligent and straightforward solution – surprisingly within budget, too.

From web development and Internet marketing to custom applications and business productivity solutions, Gatesix designs, develops and supports **custom IT solutions** to meet its clients' exact business needs. The company serves as a **gateway** into **six** key technology areas: Internet strategy, business productivity, infrastructure management, offshore outsourcing, IT consulting, and custom applications.

With a broad range of intelligent and reliable technology services, Gatesix helps businesses succeed in the following six critical areas:

- **exposure** - Improve online presence
- **efficiency** – Maximize business productivity
- **essential** – Manage technology infrastructure
- **expand** – Augment your team
- **expertise** – Consult our specialists
- **enable** – Develop custom solutions
